ENVIRONMENTALLY FRIENDLY

Our products and fragrances are created to be environmentally friendly and safe. The durable design of our products make them long lasting and they are made and packaged with recycled materials. We believe that air fresheners should not contain VOCs, alcohol or any other chemicals that pollute the air we breathe. Our fragrances are VOC and solvent free, nontoxic, are made of botanical extracts and contain organic ingredients.

PEOPLE-SAFE™

Our fragrances are 100% organic and hypo-allergenic, making F-Matic completely safe to breathe. With concerns about indoor air quality at an all-time high, the time is right for F-Matic!

24/7 OPERATION

Unlike timed aerosol sprays that leave dead time between sprays and pollute the air, and different from drip systems that can be diluted to the point of being ineffective, F-Matic's Dry Vapor System overcomes these problems by continuously circulating room air across a solid gel fragrance. Airborne odors are effectively neutralized throughout the room, leaving a natural essence in their place. In addition, F-Matic's Controlled Release Technology ensures that each gel fragrance will provide effective odor control and air enhancement for a full 30 days.

PURE & NATURAL™

What does Pure & Natural™ mean? It means the highest quality, pure botanical fragrance oils go into F-Matic fragrance cartridges. Whether it's the sweet smell of a fresh cut pineapple or the refreshing essence of an evergreen forest, we're sure you'll love F-Matic's pure, light, fresh aroma.
