

# Modular Selector Taskmizer

## Modular Selector Taskmizer

### *Specifications*

CODE: H5804

#### **PATENTED REMOTE ACTIVATION**

Allows for easy filling of buckets and auto scrubbers, even around corners.

Simply mount the cap proportioner to your chemical concentrate bottle, connect it to an available water source, and you're ready to go!

#### **PATENTED SELECTED VALVE**

Provides lowest cost multi-product system, along with flexibility for multiple dilutions of one or more products.

#### **UNIQUE MOUNTING BRACKETS**

Allow for quick, easy installation, saving time and money.

#### **SPACE SAVING DESIGN**

Requires less mounting area than similar systems.

#### **BACKFLOW PROTECTION**

It comes with a E-Gap Eductor that prevents back flow of chemical into the water supply.

#### **PRODUCT DISPENSER**

Dispenses up to 4 low flow and 2 high flow products. (plus clear water rinse)
