

Third Party Recognition

"Dustbane Products Limited is one of the good guys...you've won the endorsement of Canada's national ecolabeling program."

TerraChoice - September 10, 2004

"Congratulations on your government's commitment to implement a green procurement policy by 2006! I offer you our support, and encourage you to take advantage of an important tool you already possess: the Environmental Choice Program."

Scott Brison - Public Works and Government Services Canada - October 6, 2004

Stephane Dion - Environment Canada - October 6, 2004

"This Speech from the Throne offers a great opportunity for the federal government to reengage the Environmental Choice Program as a key tool for environmental protection and industrial innovation and competitiveness."

Colin MacKenzie - The Globe & Mail - October 6, 2004

"By 2006, the Government will implement a new Green Procurement Policy to govern its purchases..."

Excerpt of the Speech from the Throne, October 5, 2004

Dustbane Solutions for a Safe ENVIRONMENT

Dustbane's green circle approach is part of the solution.

Choose Dustbane Environmental Products.

www.dustbane.ca

Our Mission

What we stand for...

As a leading manufacturer in our chosen market, Dustbane recognises that it has an environmental responsibility. We also recognize that we have a responsibility for helping our customers make informed decisions about the use of our products.

Dustbane Green Circle

To promote greater effectiveness and continual improvements in our environmental investments and activities, Dustbane is introducing an environmental logo. Its purpose is to help people become aware of our improvements and learn what we have to offer. Products that fulfil the requirements will benefit both businesses and consumers, by enhancing product quality and environmental protection.

The products

Environmental challenges have not stopped us from developing products that correspond to our customers' needs. On the contrary, it has given us the chance to drastically improve environmental standards for our products while creating new business opportunities. By choosing our products not only will you be satisfied by their results but you will be part of our mission toward a sustainable society.

Making the Right Turn

No A.P.E.
(Alkyl Phenol Ethoxylates)

No E-glycol Ether

No Phosphate
(limited in degreaser)

No Ammonia

No V.O.C. (limited)
(Volatile Organic compounds)

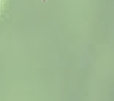

Low Packaging
(super concentrates)

Biodegradable

No petroleum ingredients

No EDTA/NTA
(causes entrapment of heavy metal molecules)

Choosing the right path for the environment

Environmental Choice Program

Established by Environment Canada in 1988 as a market instrument for environmental protection and industrial innovation, the Environmental Choice Program has grown to include over 200 manufacturers and over 3000 products.

New product line

To further pursue our environmental goals, we have introduced a new line of products in 2005. This complete line will be Environmental Choice approved.

Among these products, you will find the following:

- Azure** - Window and Glass Cleaner
- Emerald** - Degreaser
- Excelsior** - Hard Surface Cleaner
- Orbit** - Zinc Free All Systems Floor Finish
- Polar** - Bathroom Cleaner
- Time-Out** - Floor Stripper
- Tradition** - Hand Cleaner
- Foundation** - Zinc Free Sealer
