Peter Forster
Dustbane
Regional Sales Manager
25 Pickering Place
Ottawa, Ontario K1G 5P4

Dear Sir:

Over the last five years Red River College's Facilities and Purchasing departments have been striving to purchase cost effective products that are healthier for people and the environment. When we found out from our distributor that Dustbane had an Environmental Choice wax (Orbit) and stripper (Time-Out) we decided to try them. The staff was skeptical about switching from products that were not green but performed well. Over the last two years we have switched completely to these and other janitorial products. We are extremely pleased with their performance, cost effectiveness and with knowing that we are making a difference by purchasing green products. Thank you for your support in our efforts to go green!

Sincerely,

Glen MacRae
Building Services Manager
Red River College of Applied Arts, Science and Technology
