## Cleaning a Passenger Ship: The Interior

Cleaning a passenger ship begins with a simple program. Ask us about a custom program that will meet your individual needs. Here is our baseline recommendation.

Click this symbol below to view online: 

1

### Window Cleaner: Azure

Don't let dirty windows ruin the view and experience of your passengers. Using Azure to clean your windows will give you streak free, sparkling clean windows.

UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:16.
- Available in 750 ml (RTU) & 4 L.

2

### Disinfectant Cleaner: Quat Plus

Infectious diseases can be carried aboard the passenger ship. Using a disinfectant with a detergent can perform two tasks at once and prevent the spread of germs and diseases. Quat Plus also eliminates odours without the harsh smell of chemicals. UL ECOLOGO® Certified. DIN: 02298694.

- Dilute in cold water at a rate of 1:80.
- Available in 4 L.

3

### Victory Handheld Sprayer

With a large volume of travellers, ships can become heavily contaminated with other germs and illnesses. The Victory Electrostatic Sprayers use static electricity to charge up the dispensed chemical in the tank, so the product will stick to the desired surface and wrap them entirely in chemicals for thorough disinfection.

4

### Spot and Stain Remover: Eco-Expert

Spills, coffee, crumbs, dirt and other debris end up on the seats and carpets. Keeping them clean is a task that must be performed in order to keep stains off the clothing of passengers. A small amount of Eco-Expert will do the trick. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:125.
- Available in 4 L & 20 L.

5

### Floor Cleaning: Targa 330

This dry pickup canister vacuum will work well in tight spaces around displays and furniture.

- Rugged, non-corrosive construction and chemical resistant.
- CRI Certified.
