

The Dustbane Way

Cleaning an Airplane: The Interior

Cleaning an airplane begins with a simple program. Ask us about a custom program that will meet your individual needs. Here is our baseline recommendation.

1

Disinfectant Cleaner: Quat Plus

Infectious diseases can be carried aboard the aircraft. Using a disinfectant with a detergent can perform two tasks at once and prevent the spread of germs and diseases. Quat Plus also eliminates odours without the harsh smell of chemicals. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:80.
- Available in 4 L.

2

Spot and Stain Remover: Eco-Expert

Spills, coffee, crumbs, dirt and other debris end up on the seats and carpets. Keeping them clean is a task that must be performed in order to keep stains off the clothing of passengers. A small amount of Eco-Expert will do the trick. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:125.
- Available in 4 L & 20 L.

3

Fast Track Back Vac

This lightweight 1.7 gallon backpack vacuum is perfect for getting those hard to reach areas around and behind seats.

- Extremely high air-flow speeds your cleaning needs.
- Back-pad that fits the curve of any operator's back with lumbar support.
- Comes with the Standard Tool Kit.

4

Glass and Chrome Cleaner: Azure

Clean windows make a good first impression and set the tone for the rest of the facility. Keep your windows, mirrors, chrome and stainless steel sparkling clean and streak free. APE, VOC and ammonia free. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:16.
- Available in 750 ml (RTU) & 4 L.
