Cleaning a Conference Room

Cleaning a conference room starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Spot Remover: Oxy D.S.T.

After long meetings, spills, coffee, crumbs, dirt and other debris end up in your office chairs. Keeping your chair clean is a chore you must perform to keep stains off your patrons' clothes. You don't need a harsh chemical to remove stains and spots from the chair; a small amount of Oxy D.S.T. will suffice. UL ECOLOGO® Certified.

Disinfectant Cleaner: Quat Plus

Boardrooms are the setting for many meetings, some of which can determine the very future of a business. Employees and guests spend hours in these conference rooms, and it is likely that food crumbs, soils and spills will find itself on the table. Maintaining the table clean will impress your guest and set the table for success. DIN: 02298694.
