

The Dustbane Way

Restoration: Fire Damage

Cleaning up fire damage starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1 Cleaner & Degreaser: Power Klean

Restoration after a fire can involve oily residues and grease from extinguisher foam or moisture. Power Klean is an effective chemical that can be sprayed on most hard surfaces to remove soils quickly without leaving behind harsh fumes.

- Dilute in cold water at a rate of 1:5
- Available in 750 mL & 5 L.

2 Disinfectant: UniTab

UniTab is proven effective against a number of different microorganisms that can result in mold spores in damp environments. This compact tablet is perfect in areas that require intense disinfection against bacterial growth. DIN: 02470381.

- Dilute 2 tablets per 1 L of water for disinfection.
- Dilute 1 tablet per 20 L of water for sanitizing.

3 Disinfectant & Deodorizer: Oxy-Q

A building that has experienced a fire in the vicinity can have unwanted films that produce foul smells and bacteria. Oxy-Q uses hydrogen peroxide to create a complete cleaning solution that can tackle contaminated buildup and leave behind a fresh scent. UL ECOLOGO® Certified. DIN: 02457148.

- Dilute in cold water at a rate of 1:80
- Available in 4 L.

4 Odour Control: ClearOut

Designed specifically for smoke odours, ClearOut is beneficial in fire restoration as fires and smoke can leave behind harsh odours that are hard to remove. ClearOut removes the odours rather than masking them with strong perfumes.

- Spray with a fine mist for optimal efficiency.
- Available in 2 L.

5 Debris Pickup: Targa 18 XL Tip & Pour

A wet & dry canister vacuum is essential for debris pickup after a natural disaster. Built with a sturdy body, the Targa 18 XL Tip & Pour can operate in high-demand cleaning operations without damaging or corroding the unit.

- Compatible with Tool Kit #3 & Front Mount Squeegee.

6 Victory Electrostatic Sprayer/Backpack

Reduce the risks of mold and mildew by disinfecting all surfaces, crevices, and tight areas. The Victory Series can provide a 360° coverage on all targeted surfaces to ensure disinfection and odour control are achieved in all areas that can't be reached.

- Available with a 0.25 gallon tank capacity (Sprayer).
- Available with a 2.25 gallon tank capacity (Backpack).
