

The Dustbane Way

Cleaning a Fitness Centre

Cleaning a fitness centre starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Neutral Detergent: Film Away

A neutral detergent that works on both floors and carpets to remove residue left behind from floor strippers, ice melter and hard water build-up to extend the life of your flooring. Film Away's neutral pH formula is an excellent multitask cleaner that offers superior cleaning power. UL ECOLOGO Certified.

- Dilute in cold water at a rate of 1:80.
- Available in 4 L.

3

Fast Track Back Vac

This lightweight 1.7 gal backpack vacuum is perfect for getting those hard to reach areas around and behind gym equipment.

- Extremely high air-flow speeds your cleaning needs
- Comes with the Standard Tool Kit

2

Victory Electrostatic Sprayers

A lot of gym equipment isn't properly disinfected after use, allowing them to become heavily contaminated with other people's bodily fluids and germs. The Victory Electrostatic sprayers use static electricity to charge up the dispensed chemical in the tank, so the product will stick to the desired surface and wrap them entirely in chemicals for thorough disinfection.

4

Disinfecting Wipes: Eliminate

Fitness centers can be a dirty place. This area, where many people are sweating on equipment, creates an environment that may as well be a playground for bacteria, viruses and other troublemakers. Having readily available disinfecting wipes to wipe down the equipment after each use will encourage patrons to clean the equipment and maintain the sanitary standards of your facilities .

- Ready-to-use.
- 7" x 8" wipes (180 wipes per container)
