

The Dustbane Way

Cleaning a Garage

Cleaning a garage starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Industrial Degreaser: Power Lift

Vehicles often cause grease to build up on floors and equipment, the choice of a good degreaser is very important. With its safe yet powerful formula, Power Lift effectively cuts through grease, oil and heavily soiled surfaces, and contains no solvents.

- Safe to use on all metal and non-metal surfaces, including rubber.
- Available in 4 L, 20 L & 210 L.

2

Hand Cleaner: Ultra Orange

Mechanics get their hands dirty with a range of oils, grease and dirt. Ultra Orange is an industrial strength hand cleaner that can tackle any job, offering deep cleaning power while being gentle on the hands.

- Ready-to-use.
- Available in 4.5 L.

3

Debris Pickup

Cleaning debris that have accumulated on garage floors with a broom takes a long time and just stirs the dust up into the air. To get the job done quickly and efficiently, this process requires a good performing, high capacity wet & dry canister vacuum such as the PC-3, PC-3 on drum or XL 18 Tip & Pour.

4

Sweeping Compound

Dustbane Sweeping Compound is used to clean and reduce airborne dust during sweeping and to ease the removal of dust and dirt on sealed and unsealed wood, concrete and metal floors. 100% biodegradable.
