

The Dustbane Way

Cleaning an Ice Rink

Cleaning an ice rink starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Floor Cleaner: Film Away

With Film Away and the proper rubber floor maintenance program, you will be amazed just how good your sports surfaces will look for years to come. Film Away's gentle formula will not harm your rubber floors. Remove all surface debris, grit, sand and soil with a broom and vacuum before proceeding with washing the floors. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:80.
- Available in 4 L.

2

Surface Cleaner: Resolve

Resolve will quickly and effectively remove stubborn puck marks and tape marks from fibreglass, Plexiglass, and rink boards. Renew the overall look and enhance the appearance of your advertisers rink signage and your patrons view – and make your boards and glass look new again!

- Dilute in cold water at a rate of 1:5.
- Available in 5 L, 20 L, 210 L.

3

Labrador XP – Cylindrical

Cylindrical walk behind scrubbers are perfect for sweeping and cleaning rubber floors. Sweeps, scrubs and cleans in one single pass and collects solid debris into a removable tray.

- 20" scrubbing path.
- 30% water savings compared to disc machines.

4

Targa 990

Our most popular model, this wet/dry pickup canister vacuum will work well in tight spaces like benches.

- Rugged, non-corrosive construction and chemical resistant.
- CRI approved.
