

The Dustbane Way

Cleaning a Locker Room

Cleaning a locker room starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Floor Cleaner: Film Away

Flooring for locker rooms has to withstand unique conditions and can get soiled very easily due to the high traffic. Film Away's gentle formula is gentle on concrete surfaces and will not cause chemical degradation of the flooring. Maintaining clean floors will not only make your facilities more sanitary, but will make your patrons more at ease. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:80.
- Available in 4 L.

2

Odour Control: Air Max

Locker rooms are frequently a source of malodours. These odours range from uniforms and gym bags, sweaty clothes, mold and mildew from the shower rooms, perspiration odours and odours from sports equipment. The Air Max is designed to offer consistent and powerful odour control for a full 30 days.

- Available in mango, cotton blossom and cucumber melon.

3

Contaminated Surface Cleaner: Vanguard

Benches for changing are a great asset in locker rooms but their cleaning is often overlooked. The moist environment, combined with the large amount of bodies that congregate together, make this area a perfect spot for germs to grow. Disinfection is essential to maintain a cleaner and healthier environment for patrons. DIN: 02213109.

- Dilute in cold water at a rate of 1:80.
- Available in 5 L & 20 L.

4

Floor Cleaning: Hurricane Mini

Our most compact auto-scrubber will wash your floors in difficult to reach areas while enhancing productivity in small spaces.

- Height-adjustable handle
- 14" scrubbing path
