

The Dustbane Way

Cleaning a Lounge Area

Cleaning a lounge area starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Disinfectant Cleaner: Vanguard

With airborne diseases and infections on the rise, it has become vital to disinfect and sanitize the surfaces. Vanguard is designed to exterminate bacteria and viruses that are harmful to human health and is the ideal solution.

- Dilute in cold water at a rate of 1:80.
- Available in 5 L & 20 L.

2

Glass and Chrome Cleaner: Azure

Keep your windows, mirrors, glass, chrome and stainless steel sparkling clean and streak free. APE, VOC and ammonia free. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:16.
- Available in 750 ml (RTU) & 4 L.

3

Carpet Cleaner and Stain Remover: Eco-Expert

Carpets can trap bacteria and viruses, and vacuuming alone is not enough to kill those germs. A deep cleaning of carpets and upholstery with Eco-Expert will prevent the spread of infectious diseases and provide a more sanitary environment. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:125.
- Available in 4 L & 20 L.

4

Deodorizer: Bio-Bac II

Accidents happen and can leave an unpleasant smell behind. An enzyme-activated product, such as Bio-Bac II is the best resource to clean fresh or old stains. Enzymes remove odours by causing a biological or chemical reaction. Bio-Bac II provides a safe and efficient way to maintain clean, sanitary and odour free surfaces. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:200.
- Available in 4 L.

5

Carpet Cleaning: Tracker

An upright vacuum such as the Tracker is highly effective for debris pickup and will help maintain room cleanliness. This model features all metal high-wear components and offers years of worry-free use.

- Clean Air Technology.
- Telescopic Power Wand extends cleaning reach by 32".
