

The Dustbane Way

Cleaning an Office Cubicle

Cleaning an office cubicle starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Multi-Purpose Cleaner: Excelsior

If you work in an office, you know all too well how quickly a cold or bug can circulate around the office. The use of Excelsior as a general purpose hard surface cleaner will prevent the spread of germs while minimizing your chemical inventory and providing the cleaning results you strive for. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:64.
- Available in 4 L & 20 L.

2

Spot and Stain Remover: Eco-Expert

Spills, coffee, crumbs, dirt and other debris end up in places you least expect, like your office chair. You don't need a harsh chemical to remove stains and spots from the chair; a small amount of Eco-Expert will get the job done. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:125.
- Available in 4 L & 20 L.

3

Carpet Cleaning: 1200 XT Box Extractor

Deep clean stains and odours in carpeting with the 1200 XT Box Extractor. Maintaining a clean carpet will extend its life while improving the quality of the air in the office and promoting a healthier environment.

4

Carpet Cleaning: Tracker

Keep your office carpets free of dirt and debris for years to come with the Tracker vacuum.

- 1 gallon upright vacuum
- HEPA Media vacuum bag for advanced filtration and easy dirt disposal

5

Odour Control: Air Max and Air Flex

An effective passive air system will neutralize airborne odours throughout the room. The Air Max and Air Flex are designed to offer consistent and powerful odour control for a full 30 days and are far more effective than gels, wicks and aerosols.

- Available in mango, cotton blossom and cucumber melon.
