

The Dustbane Way

Cleaning the Restrooms

Cleaning restrooms starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

Hand Washing: Tradition Plus

The emollient containing formula of this foaming hand cleaner leaves hands feeling smooth and soft. UL ECOLOGO® Certified.

- Use with an open top dispenser
- Reduce soap waste by more than 50%

1

Disinfectant Cleaner: Blu-Lite Plus

Germs are spread incredibly easily especially in public areas. More travellers means more germs – and as these patrons head to the restroom to freshen up, they must be extra clean. The use of a disinfectant cleaner will ensure your surfaces are germ free.

- Dilute in cold water at a rate of 1:40.
- Available in 1 L & 4 L.

3

Drain Cleaner: Bio-Bac II

Malodours in washrooms are far from appealing to travellers. Drains are one hiding place where germs can lurk. Bio-Bac II's enzyme based formula will eat away the odour causing bacteria. UL ECOLOGO® Certified.

- Use concentrated.
- Available in 4 L.

2

Bowl & Urinal Cleaner: Quick Fix

Malodours in restrooms are frequently caused by urine stains – the main culprits – toilets and urinals. Quick Fix removes stubborn hard water stains, rust and mineral deposits for the deepest clean.

- Use concentrated.
- Available in 1 L.

4

Glass Cleaner: Azure

All establishments must maintain cleanliness in order to attract and retain customers. As it is human nature to look at ourselves in the mirror, this surface must be kept spotless to preserve a clean appearance. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:16.
- Available in 750 ml (RTU) & 4 L.
