

The Dustbane Way

Cleaning Shower Stalls

Cleaning shower stalls starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

1

Soap Scum Remover: Blu-Lite Plus

There is an airborne bacteria known as *Serratia Marcescens*, that thrives on the soap and shampoo residues left behind on shower surfaces. Regular cleaning using Blu-Lite Plus will keep surfaces clean and sanitary.

- Ready-to-use.
- Available in 1 L & 4 L.

2

Tile & Grout Cleaner: Blu-Lite Plus

Humid and moist environments are breeding grounds for mold and mildew. Grout, being porous, absorbs the water below the surface and carries these contaminants below the surface, which can lead to discoloration and the appearance of being dirty.

- Dilute in cold water at a rate of 1:10.
- Available in 1 L & 4 L.

3

Drain Cleaner: Bio-Bac II

Malodours in washrooms and shower stalls are far from appealing to patrons. Drains are one hiding place where germs can lurk. Bio-Bac II's enzyme based formula will eat away the odour causing bacteria. UL ECOLOGO Certified.

- Use concentrated.
- Available in 4 L.

4

Tile & Grout Cleaning: Integra-D

Used in combination with the Fast Track Kit, our new floor preparation machine is designed to pick up 80% of grinding residue at the source and on the first pass. Orbital machine for practically dustless and chemical free scrubbing and stripping, with less clean up, to increase your productivity.

- 20" or 28" scrubbing path.

5

Floor Cleaning: Hurricane Mini

Our most compact auto-scrubber will wash your floors in difficult to reach areas while enhancing productivity in small spaces.

- Height-adjustable handle.
- 14" scrubbing path.

6

Personal Care: Hand & Body Shampoo

This thick and extra high foaming product has been specially formulated for gentle cleaning action. It is mild to the skin, has a pleasant fragrance and neutral pH balance. UL ECOLOGO Certified.

- Phosphate, APE and VOC free.
- Available in 4 L.
