

The Dustbane Way

Cleaning a Warehouse

Cleaning a warehouse starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation.

Click this symbol below to view online: 

Sweeping Compound
Dustbane Sweeping Compound is used to clean and reduce airborne dust during sweeping and to ease the removal of dust and dirt on sealed and unsealed wood, concrete and metal floors. 100% biodegradable.

1 Cleaner & Degreaser: Complex Orange
Because the machines used in warehouses often cause grease to build up on the floors and equipment, the choice of a good degreaser is very important. Complex Orange is a solvent free cleaner degreaser that quickly emulsifies and removes the toughest dirt and soils.

- Dilute in cold water at a rate of 1:30.
- Available in 4 L, 20 L & 210 L.

2 Floor Sealer: Foundation
Foundation stops concrete dusting, improves stain resistance, increases abrasion and crush resistance. Foundation achieves uncommon levels of durability and permanency for total sealer protection. APE and odour free. UL ECOLOGO® Certified.

- Two to three coats recommended.
- Available in 4 L & 20 L.

3 Disinfectant: UniTab
UniTab is proven effective against a number of different microorganisms that can result in mold spores in damp environments. This compact tablet is perfect in areas that require intense disinfection against bacterial growth. DIN: 02470381.

- Dilute 2 tablets per 1 L of water for disinfection.
- Dilute 1 tablet per 20 L of water for sanitizing.

4 Debris Pickup
Cleaning debris that have accumulated on warehouse floors with a broom takes a long time and just stirs the dust up into the air. To get the job done quickly and efficiently, this process requires a good performing, high capacity wet & dry canister vacuum such as the XL 18 Tip & Pour.

5 Floor Sweeping: Gladiator 1404
An industrial ride-on sweeper machine will allow you to perform warehouse sweeping in a more effective and efficient way.

- Run time of 4.5 hours.
- Automatic adjusting of brush pressure.
- 58" sweeping path.

6 Victory Handheld Sprayer
With a large volume of travellers, ships can become heavily contaminated with other germs and illnesses. The Victory Electrostatic Sprayers use static electricity to charge up the dispensed chemical in the tank, so the product will stick to the desired surface and wrap them entirely in chemicals for thorough disinfection.
