## Getting your carpets healthy

### About this product

A superior performance product formulated to clean, deodorize, and sanitize carpets. Contains a twin chain quaternary ammonium compound which reduces the growth of Gram-negative and Gram-positive bacteria that can spread illnesses. The deodorizing properties destroy odours deep in the carpet and upholstery instead of simply masking them. Can revitalize your carpets and upholstery for a longer lasting, healthier clean. Ideal for use on carpets in healthcare facilities such as hospitals, nursing homes, clinics, dentist offices, and others.

- 3-in-1 carpet cleaner
- Improves air quality
- Revitalizes your carpets
- Eliminates odours
- Deeper, healthier clean
- Eliminates unhealthy bacteria
- Compatible with all carpet cleaning equipment

### Benefits of carpet cleaning

Carpets are like sponges. They collect dirt and dust that are being carried throughout a room. Vacuuming alone cannot remove all the dirt, dust and stains that have sunk in the fibers of the carpet. Carpets also capture pollutant and dust mites that can affect indoor air quality. Regularly cleaning your carpets will not only lead to healthier and cleaner space but can significantly increase the lifespan of your carpets.
