

Black Diamond Pads

Polishing Perfection!

The Black Diamond Cleaning and Polishing System restores, cleans, and polishes concrete, natural stone, and a wide variety of other floor types. Through a range of grit levels, this system allows for a customizable floor care process based on the starting condition of the floor and the desired gloss level. Through our Integrated Matrix Technology™, microscopic diamonds embedded in the base web deliver mechanical cleaning action without the need for harmful chemical agents, achieving a clean, high gloss floor.

Diamond Technology

Black Diamond Pads are the latest in diamond pad technology. A diamond pad and water is all that is required to remove dirt and debris from the floors. Designed to be used with the Square Scrub Pivot or our auto-scrubbers.

Black-Diamond pads contain wear indicators, making it easy to determine when to replace them. They can be used wet or dry, and are ideal for the most common floor surfaces such granite, natural stone, polished concrete, terrazzo, vinyl and epoxy floors.
