

Restore

Restore the shine

About this product

A triple action floor maintainer for ultra high speed maintenance programs which cleans and restores while maintaining an exceptional appearance. Floor maintainers like Restore can considerably improve cleaning standards and also achieve cost savings. Restore's formula is a combination of detergent and wax polymer which cleans, enhances slip resistance, removes black marks and scuffs while building gloss on hard floors. Ideal for routine spray buffing, mopping and auto-scrubber drying of hard floors.

- Extends the life of floor finish
- Increases slip resistance
- Built in detergents to clean
- Removes scuffs and black marks
- Non-yellowing
- Safe for all types of flooring
- Restores shine
- Eliminates frequent refinishing
- No special equipment required
- Quick and effortless
- Does not soften finish surface
- ECOLOGO Certified (UL 2777)

Dilution rates:

ECOLOGO (UL 2777)	1:20
Mop, Auto-scrubber	1:20
Dry Burnishing	1:4

How to restore a floor using a floor maintainer

Restoring a floor finish can be done using different methods. For quick maintenance, diluting Restore and applying it using a mop will bring quick and easy results. Repairing a damaged floor finish can be done using the spray buffing method where you dilute Restore at 1:4 with water and spray a small amount onto the floor. Pass over this area 3 or 4 times with the Integra floor machine and red floor pad and voilà, your floor will look like new!
