

Commercial Automatic Scrubbers

Innovative

Our machines are designed with innovative technologies to increase productivity while lowering the cost of cleaning. The intuitive control panel and superior maneuverability makes it easy to use for any operator.

Large Tank Capacity

The 26/29 gallon capacity tank in a minimum external space makes these models very unique in their category.

Self-Levelling System (SLS)

The automatic brush pressure control allows for constant brush pressure with immediate reaction. This also avoids excessive brush and actuator wear.
